Dalessandro
Presenta:

Ohilà

"Magic whitout tricks"

Plot:

In this performance, magic is the means, entertainment is the form, and improvisation is the dialogue.

A specific street performance which emphasizes what makes these shows unique: **The public.**

A collective performance, a way to feel like children again and to let go...

Technical Info

Show Time: 40/45 minutes -

(can be reduced to 30 minutes if necessary)

Max Shows per day: 3/4 -

(Minimum time between repetitions 45 minutes)

Assembly/Disassembly: 15 minutes -

(I can change places during the event if necessary; my cases are compact and equipped)

Sound and lighting: I work with my Professional PA system, microphone and lights (I do not require electricity)

Of course, I can also use the festival system if provided.

Space Min: 4x4

IMPORTANT: During the finale of the show, a helium-inflated balloon will be let to fly away, so it is important that the column of air above the show is free-obstacles, it's okay that there are things near or around, but no right above the show area. (Electric cables, Trees blocking the area above the show etc)

PS. The balloon is Biodegradable

Travel:

-Location of Departure: Italy - Turin

(During the season I may depart directly from another festival.)

I usually travel across Europe and ask festivals for **hospitality starting from 1 day before the shows.**

-I usually travel in my own car, but in case of need to reduce expenses I can also travel with Bus companies (Flixbus etc.)

-Airplane In case of long distances (1 Standard 23kg Hold Suitcase and 1 Standard 10kg Hand Luggage).

In case I have to travel by Airplane I need the festival to provide me inflated balloons (1 per show) or make sure there is a possibility to buy them near to the festival.
